Introduction

The comprehensive Indiana School Improvement Plan aligns the improvement requirements for schools under Title I, PL221, and the Student Achievement Plan (SAP) for focus and priority schools.
Executive Summary
Introduction

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.
Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Saint Joseph High School is a Catholic secondary school within the Diocese of Fort Wayne-South Bend, located in South Bend, Indiana. The school, founded in 1953, provides a college preparatory curriculum.

The current enrollment of Saint Joseph High School is 858 (2018-19). Each of the four grades has an average of 221 students per grade. Approximately 87.8% of our students are Catholic. Our Catholic feeder schools are the source of 77.6% of Saint Joseph's students, whereas 11% are from other Catholic or private schools, 1% are home schooled, and 10% come from other area schools. Students typically enter Saint Joseph High School from these elementary feeder schools: Christ the King, Corpus Christi, Holy Cross, Holy Family, Saint John the Baptist, Saint Adalbert, Saint Anthony, Saint Pius X, and Saint Joseph Grade School. About 97% of our students go on to attend four year colleges or universities.

The demographics of the school generally reflect the demographics of the surrounding area. The faculty and staff include 51 full-time and 7 part-time teachers, a media specialist, 4 counselors, a nurse, technology staff, pastoral ministers, cafeteria staff, custodial/maintenance staff, learning strategies coordinator, Business Office staff, a Latino Outreach coordinator, Office of Mission-Advancement staff, Director of Admissions, a testing coordinator, and athletic staff.

As a diocesan high school, Saint Joseph High School is one of four high schools in the Diocese of Fort Wayne-South Bend. Tuition and fundraising are the two main sources of school revenue. Tuition has increased steadily, 3-8% each year and covers 74% of the cost to educate. The Mission-Advancement office generates additional funds to offset these costs through the Annual Appeal, Annual Auction, and Golf Outing.

Saint Joseph High School enrollment has been steadily growing over the past five years. In the fall of 2012, the school moved into new facilities at 453 North Notre Dame Avenue.

Financial Aid is a need in the Saint Joseph community. The school budgets for approximately $120,000 in financial aid through its operating budget. Diocesan financial aid and an SGO (Scholarship Granting Organization), that was established to allow tax credits for eligible contributions, are designated for tuition assistance. School Choice Scholarships are also available to eligible students.
School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

The Mission Statement for Saint Joseph High School:
Saint Joseph High School is a Catholic secondary school dedicated to transforming students in heart and mind, preparing them to serve God, the Church, and the world.

The Vision Statement for Saint Joseph High School:
Saint Joseph High School will be a diverse Catholic community engaged in the process of preparing our students to live exemplary lives, committed to sharing wisdom, showing courage, and supporting justice in the world.

We believe that every member of the Saint Joseph High School community will:
- Practice faith in God
- Commit to excellence
- Seek knowledge
- Live ethically
- Promote justice
- Act with global awareness

The Animating Principle and Core Beliefs:
God calls; we answer
- Reach higher
- Discover our gifts
- Build family
- Serve with joy

The mission statement and the vision statement are posted in each classroom and in the hallways and offices. These are at the heart of all we do at Saint Joseph High School. In 2014-15, we launched our animating principle along with our core beliefs. These were introduced through a poster contest and introduction at our all-school Masses. We will focus on one core belief each year. This year, we are focusing on: "Serve with joy."
Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

Some of the notable achievements in the last three years are:
- Even though it is beyond the three year mark, Forward in Faith Capital Campaign resulted in the building of a new state-of-the-art school at a cost of $40 M. The project involved nearly 5 years of planning, 18 months of fundraising, and 14 months of building the new facility. The new school opened in August 2012. A successful move was made in the summer of 2012 to the new location - approximately 2 miles from original school.
- Completed a Five-Year Strategic Plan (2014-2019) and recently completed year four of the strategic plan
- In order to create an intentional school culture, established a new animating principle (God calls; we answer) and four core values (Reach higher; Discover our gifts; Build family; Serve with joy)
- Established a School Culture and Climate Committee to help facilitate the animating principle and core values

Construction of new school:
- The new school includes beautiful chapel (completed November 2012), two gymnasiums, Black Box Theater, cafeteria, 50 classrooms, media center, and various other meeting and office spaces. In addition, the facility has an all-purpose stadium with a 9-lane track. Seating capacity in the stadium is 3,500 (both bleachers).
- Classrooms include multi-seating layouts with a minimum of two projectors in each classroom, one short throw and one long throw; four classrooms have three projectors.
- Two new softball fields were completed at the North Fields Sports Complex.
- Installed irrigation system for the JV baseball field, 2 softball fields, and 1 practice field at the North Fields Sports Complex
- Installed batting cages for baseball and softball in one of the two team rooms at the Leighton Stadium complex
- Installed ornamental fence to enclose the entire campus surrounding Leighton Stadium
- Purchased new chairs for the cafeteria
- Decreased debt by 2.3 million
- Balanced the cash budget
- Established a capital items budget

Technology:
- Implemented one to one laptop program
- Created i-Help Desk to help maintain computers and print for students
- Designed digital signage
- 100% wireless coverage in the building
- Implemented Canvas, an (LMS) Learning Management System
- Established more differentiated learning, with the help of technology
- Dependable classroom technology is available

Faculty/staff presentations:
- Art faculty presentation at (NCECA) National Council for Education in the Ceramic Arts conference
- Math faculty presentation at Indiana Council of Teachers of Mathematics Conference
- Science and theology collaboration for presentation at Science and Religion seminar at Notre Dame
- Technology director presentation at Lightspeed Conference

School awards:
- Recognized as a Top 50 Catholic High School and a School of Excellence by the Catholic High School Honor Roll - ten consecutive years
- Recognized in Civic Education, Catholic High School Honor Roll (2006-2010)
- Recognized as an overall Catholic Education Honor Roll School (2017-2018)

New academic offerings:
- Established two new AP classes - AP Advanced Environmental Science and AP Art
- Established a News and Broadcasting Class to daily broadcast a 10-minute news show to the school
- Established two PLTW (Project Lead the Way) courses of study, Bio-medical and Engineering.
- Established a new World Language course: Chinese.

Academic/co-curricular highlights:
- Improved AP scores with an increase in number of AP Scholars
- Improved standardized test scores, namely the SAT and ACT scores; consistently scored ahead of national and state averages
- Hesburgh-Yusko Scholar - 2012, 2015
- Lilly Scholar Recipient - 2011, 2013
- Designated as a Four Star School in the State of Indiana each of the last three years
- NCTE - prestigious award in writing - 2013 plus many others over the years
- Quiz Bowl - State champs for 2011-2018 (seven years in a row)
- National History Bowl State champs 2013, 2014, 2015
- Fed Challenge - 2015 Midwest runner up, 2013, 2014 Midwest champs, 2018 Midwest champs
- Econ Challenge - 2015 2nd in region, Adam Smith division 2013, 2014 regional champs, 2018- 3rd place
- Euro Challenge names National Runner-up in 2013, 2014. First place in the Midwest Competition in 2014
- 38 Scholastic awards earned in art in 2016
- 55 Scholastic awards earned in writing in 2015

Christian Service:
- Established a Christian Service Camp for students to experience a hands-on, service learning, emphasizing the spirituality of Christian Service. Each student is required to serve 20 hours each year as a part of our Christian Service Program.
- Students serve over 19,000 hours each year

Miscellaneous:
- Increase in number of scholarships offered every year - our senior class consistently earns more that $15 M in scholarship monies, 2016 earned $16,695,000
- Participation in the GAPP (German American Partnership Program) 2014, 2016, 2018
- National Silver Medal for Poetry and Art- earned by two students

Athletics:
- 4 Division I athletes
- 10 Division II & III athletes
- 8 sectional championships
- 3 regional championships
- 1 semi-state championship
- 5 state runner up
- 3 Northern Indiana Conference most valuable player
- 2 Northern Indiana Conference coach of the year

Areas for Improvement are:
- Improving the literacy skills of all students, across the curriculum.
- Meeting the needs of all students for college and career readiness.
Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

Saint Joseph High School's Catholic identity is at the center of our mission. We believe that we can always improve the ways in which we encourage the spiritual growth of our students.

Students are challenged in many ways to grow spiritually:

1. Sacraments are available regularly.
   a. Mass is celebrated bi-weekly in the chapel. All-school Masses are celebrated at least once per month. One Mass is celebrated each year especially for the freshman, sophomore, and junior classes. Two Masses plus the Graduation Mass are celebrated for the senior class. Sports teams regularly celebrate Mass before games.
   b. Opportunities for Reconciliation are held for the entire school community during Advent and Lent each year. In addition, our school chaplain as well as other priests have regular hours at Saint Joseph and are available for confessions.
2. Saint Joseph trains students to serve as Extraordinary ministers of Holy Communion.
3. Retreats are held annually for each class and the faculty.
4. Upper-class students are trained to facilitate retreats for the underclassmen.
5. Students prepare, perform, and participate in the Stations of the Cross liturgy during Lent.
6. Students participate in and lead daily prayer in the school. Each class begins with prayer.
7. Students are challenged in their theology classes (which teach about the faith) and are encouraged to grow in their relationship with God.
8. Students are presented with many opportunities to perform corporal and spiritual works of mercy.
   a. Annually our food drive feeds more than 300 families at Thanksgiving time.
   b. Students collect blankets for the Saint Vincent DePaul Society.
   c. Students collect money for various charities.
   d. Students pray outside the abortion clinic, and donate diapers to the local Women’s Care Center.
   e. Students travel to Washington, D.C. to participate in the March for Life.
10. Students are given opportunities to participate in various pilgrimages. A Rosary pilgrimage to the Grotto at Notre Dame is held each May.
11. A group of students pray the Rosary each day during lunch.
12. Eucharistic Adoration is held on First Fridays.
13. Students participate in a Prayer Blanket Ministry, making and distributing prayer blankets to those who are ill.

Christian Service is an integral part of the educational experience at Saint Joseph High School. This program provides students with the "opportunity to learn how to set themselves aside and reach out with love and compassion to the needy in our community, to learn how to strengthen their faith through retreats, conferences, Catholic mission work, and to contribute to the well-being of their school and parish." Students are required to complete 20 hours of service each year. Ten of these hours must be to the poor and vulnerable, while the remainder may be service to their parish, school, or spiritual development. In the last four years, 100% of our students have completed 20 hours of service. Many have gone beyond the requirement.
Improvement Plan Stakeholder Involvement
Introduction

The responses should be brief, descriptive, and appropriate for the specific section. It is recommended that the responses are written offline and then transferred into the sections below.
Improvement Planning Process

Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.

A variety of stakeholders had input into the development of the school improvement plan. The school improvement committee consisted of six teachers from a variety of departments and two administrators. All teachers reviewed the surveys and gave input regarding areas needing improvement. These groups were given copies of the surveys and met during our regular school improvement time. The school board Program Excellence committee also reviewed the plan at the regular scheduled meeting time.

Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.

All teachers were involved in reviewing the student, teacher, stakeholder surveys, identified areas of need and submitted those concerns. The School Improvement Committee reviewed the surveys, identified areas of need, and from that information, created the improvement plan. The Program Excellence committee also reviewed the improvement plan.

Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.

The final improvement plan is published on our school website. All faculty and administration are involved in carrying out the strategies identified in the plan. As needed, information is communicated through Soundings, our stakeholder newsletter.
Self Assessment
Introduction

This Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard.
## Standard 1: Purpose and Direction

The school maintains and communicates a purpose and direction that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.

Overall Rating: 3.0

| 1.3       | The school's leadership implements a continuous improvement process that provides clear direction for improving conditions that support student learning. | School leaders implement a documented, systematic continuous improvement process for improving student learning and the conditions that support learning. All stakeholder groups are engaged in the process. School personnel maintain a profile with current and comprehensive data on student and school performance. The profile contains analyses of data used to identify goals for the improvement of achievement and instruction that are aligned with the school's purpose. Improvement goals have measurable performance targets. The process includes action planning that identifies measurable objectives, strategies, activities, resources, and timelines for achieving improvement goals. School leaders hold all school personnel accountable for and evaluate the overall quality of the implementation of all interventions and strategies. The process is reviewed and evaluated. Documentation that the process yields improved student achievement and instruction is available and communicated to stakeholders. | • Survey results  
• The school data profile  
• The school continuous improvement plan | Level 3 |

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.

Saint Joseph High School had a rating of 3, fully meets benchmark, on each of the 3 indicators under Standard 1.

- Indicator 1.1 - The school engages in a systematic, inclusive, and comprehensive process to review, revise, and communicate a school purpose for student success.
- Indicator 1.2 - The school's leadership and staff commit to a culture that is based on shared values and beliefs about teaching and learning and supports challenging, equitable educational programs and learning experiences for all students that include achievement of learning, thinking, and life skills.
- Indicator 1.3 - The school's leadership implements a continuous improvement process that provides clear direction for improving conditions that support student learning.

Saint Joseph High School will continue to follow our school improvement process. The school improvement plan is submitted to the state each year.

We have established an animating principle (God calls; we answer) and a set of core values (Reach higher; Discover our gifts; Build family; Serve with joy). The mission statement, vision statement, and core values are posted throughout the school. Meetings with parents and other constituents include references to our mission statement. Each year the counseling department compiles and publishes a school profile. The student/parent handbook lists the mission statement, vision statement, animating principle, and core values. We will continue to develop these with our constituents.

In the area of improvement, we will construct a more formalized review of our mission, vision, and animating principle.
Standard 2: Governance and Leadership

The school operates under governance and leadership that promote and support student performance and school effectiveness.

Overall Rating: 3.0

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Statement or Question</th>
<th>Response</th>
<th>Evidence</th>
<th>Rating</th>

</thead>
</table>
| 2.1       | The governing body establishes policies and supports practices that ensure effective administration of the school. | Policies and practices support the school's purpose and direction and the effective operation of the school. Policies and practices promote effective instruction and assessment that produce equitable and challenging learning experiences for all students. There are policies and practices regarding professional growth of all staff. Policies and practices provide requirements, direction for, and oversight of fiscal management. | •Student handbooks  
•Governing body policies, procedures, and practices  
•Staff handbooks  
•Communications to stakeholder about policy revisions  
•School handbooks | Level 3 |
| 2.2       | The governing body operates responsibly and functions effectively. | The governing body ensures that its decisions and actions are in accordance with defined roles and responsibilities, are ethical, and free of conflict of interest. Governing body members participate in professional development regarding the roles and responsibilities of the governing body and its individual members. The governing body complies with all policies, procedures, laws, and regulations. | •Governing body training plan  
•Governing body policies on roles and responsibilities, conflict of interest | Level 3 |
| 2.3       | The governing body ensures that the school leadership has the autonomy to meet goals for achievement and instruction and to manage day-to-day operations effectively. | The governing body consistently protects, supports, and respects the autonomy of school leadership to accomplish goals for achievement and instruction and to manage day-to-day operations of the school. The governing body maintains a clear distinction between its roles and responsibilities and those of school leadership. | •Roles and responsibilities of school leadership  
•School improvement plan developed by the school  
•Agendas and minutes of meetings | Level 4 |
| 2.4       | Leadership and staff foster a culture consistent with the school's purpose and direction. | Leaders and staff align their decisions and actions toward continuous improvement to achieve the school's purpose. They expect all students to be held to high standards in all courses of study. All leaders and staff are collectively accountable for student learning. School leaders support innovation, collaboration, shared leadership, and professional growth. The culture is characterized by collaboration and a sense of community. | •Examples of collaboration and shared leadership  
•Committee reports | Level 3 |
### Indicator 2.5

**Leadership engages stakeholders effectively in support of the school's purpose and direction.**

Leaders communicate effectively with appropriate and varied representatives from stakeholder groups, provide opportunities for stakeholders to shape decisions, solicit feedback and respond to stakeholders, work collaboratively on school improvement efforts, and provide and support meaningful leadership roles for stakeholders. School leaders’ efforts result in measurable, active stakeholder participation; engagement in the school; a sense of community; and ownership.

- Copies of surveys or screen shots from online surveys

**Rating:** Level 3

### Indicator 2.6

**Leadership and staff supervision and evaluation processes result in improved professional practice and student success.**

The focus of the criteria and processes of supervision and evaluation is improving professional practice and improving student success. Supervision and evaluation processes are regularly implemented. The results of the supervision and evaluation processes are used to monitor and effectively adjust professional practice and improve student learning.

- Governing body policy on supervision and evaluation
- Job specific criteria
- Representative supervision and evaluation reports

**Rating:** Level 3

---

**Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing.**

**Cite sources of evidence External Review team members may be interested in reviewing.**

Saint Joseph High School had a rating of 4, exceeds benchmark, on indicator 2.3 indicators under Standard 2.

- Indicator 2.3 - The governing body ensures that the school leadership has the autonomy to meet goals for achievement and instruction and to manage day-to-day operations effectively.

The governing body will continue to follow the "roles and responsibilities of school leadership" set forth for the school board. Agendas and minutes of meetings are available.

Saint Joseph High School had a rating of 2, partially meets benchmark, on indicator 2.2.

- The governing body operates responsibly and functions effectively.

Each year, the diocese offers training for school board members. The leadership will work to ensure that this indicator is addressed.
### Standard 3: Teaching and Assessing for Learning

The school's curriculum, instructional design, and assessment practices guide and ensure teacher effectiveness and student learning.

Overall Rating: 2.67

| 3.7       | Mentoring, coaching, and induction programs support instructional improvement consistent with the school's values and beliefs about teaching and learning. | School personnel are engaged in mentoring, coaching, and induction programs that are consistent with the school's values and beliefs about teaching, learning, and the conditions that support learning. These programs set expectations for all school personnel and include measures of performance. | • Records of meetings and walk thrus/feedback sessions  
• Professional learning calendar with activities for instructional support of new staff  
• Descriptions and schedules of mentoring, coaching, and induction programs with references to school beliefs and values about teaching and learning  
• Personnel manuals with information related to new hires including mentoring, coaching, and induction practices | Level 3 |
| 3.8       | The school engages families in meaningful ways in their children's education and keeps them informed of their children's learning progress. | Programs that engage families in meaningful ways in their children's education are designed and implemented. School personnel regularly inform families of their children's learning progress. | • Volunteer program with variety of options for participation  
• List of varied activities and communications modes with families, e.g., info portal, online, newsletters, parent centers, academic nights, open house, early release days  
• Calendar outlining when and how families are provided information on child's progress | Level 3 |
| 3.9       | The school has a formal structure whereby each student is well known by at least one adult advocate in the school who supports that student's educational experience. | School personnel participate in a structure that gives them interaction with individual students, allowing them to build relationships over time with the student. Most students participate in the structure. The structure allows the school employee to gain insight into the student's needs regarding learning skills, thinking skills, and life skills. | • Mentoring program for at risk students Counseling | Level 2 |
### Indicator 3.10
**Statement or Question:** Grading and reporting are based on clearly defined criteria that represent the attainment of content knowledge and skills and are consistent across grade levels and courses.

**Response:** Most teachers use common grading and reporting policies, processes, and procedures based on criteria that represent each student's attainment of content knowledge and skills. These policies, processes, and procedures are implemented across grade levels and courses. Most stakeholders are aware of the policies, processes, and procedures. The policies, processes, and procedures may or may not be evaluated.

**Evidence:**
- Sample report cards for each grade level and for all courses
- Policies, processes, and procedures on grading and reporting

**Rating:** Level 2

### Indicator 3.11
**Statement or Question:** All staff members participate in a continuous program of professional learning.

**Response:** All staff members participate in a continuous program of professional learning that is aligned with the school's purpose and direction. Professional development is based on an assessment of needs of the school. The program builds capacity among all professional and support staff. The program is systematically evaluated for effectiveness in improving instruction, student learning, and the conditions that support learning.

**Evidence:**
- Results of evaluation of professional learning program.
- Teachers set professional goals and review at the end of school year

**Rating:** Level 3

### Indicator 3.12
**Statement or Question:** The school provides and coordinates learning support services to meet the unique learning needs of students.

**Response:** School personnel use data to identify unique learning needs of special populations of students based on proficiency and/or other learning needs (such as second languages). School personnel are familiar with research related to unique characteristics of learning (such as learning styles, multiple intelligences, personality type indicators) and provide or coordinate related learning support services to students within these special populations.

**Evidence:**
- List of learning support services and student population served by such services

**Rating:** Level 2

---

**Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.**

In the area of Teaching and Assessing for Learning, Saint Joseph High School's strengths include providing a challenging curriculum as indicated by the course and department outcomes. Use of common assessments ensures equity in courses taught by multiple teachers. Technology is used as an instructional resource and learning tool. Our learning strategies program identifies and tracks at-risk students through the implementation of Response to Intervention (RTI). Study table is available before and after school, and National Honor Society students are in place to provide tutoring to any student who requests it. All faculty set goals at the beginning of the year and are accountable for these goals through to their end-of-year goal conference with the assigned administrator. Parents and guardians have "around the clock" access to PowerSchool, our student grading system. This allows them to check on their student's progress whenever desired or required. These will be monitored and improved as necessary.

Those areas in need of improvement include better communicating grading policies, processes, and procedures so that all stakeholders are aware of and have an understanding of them. This next year, we will do our best to preserve time for teachers. Another area that we will...
explore best practices for implementation is the use of data to identify unique learning needs of students.
Standard 4: Resources and Support Systems

The school has resources and provides services that support its purpose and direction to ensure success for all students.

Overall Rating: 3.14

</thead>
</table>
| 4.3       | The school maintains facilities, services, and equipment to provide a safe, clean, and healthy environment for all students and staff. | School leaders have adopted or created clear expectations for maintaining safety, cleanliness, and a healthy environment and have shared these definitions and expectations with stakeholders. School personnel and students are accountable for maintaining these expectations. Measures are in place that allow for continuous tracking of these conditions. Improvement plans are developed and implemented by appropriate personnel as necessary to improve these conditions. Results of improvement efforts are evaluated. | • Documentation of compliance with local and state inspections requirements  
• Documentation of emergency procedures such as fire drills, evacuation and other emergency procedures.  
• Safety committee responsibilities, meeting schedules, and minutes | Level 3 |
## Indicator 4.4

**Statement or Question:** Students and school personnel use a range of media and information resources to support the school's educational programs.

**Response:** All students and school personnel have access to an exceptional collection of media and information resources necessary to achieve the educational programs of the school. Qualified personnel in sufficient numbers are available to assist students and school personnel in learning about the tools and locations for finding and retrieving information.

**Evidence:**
- Budget related to media and information resource acquisition
- Schedule of staff availability to assist students and school personnel related to finding and retrieving information

**Rating:** Level 4

## Indicator 4.5

**Statement or Question:** The technology infrastructure supports the school's teaching, learning, and operational needs.

**Response:** The technology infrastructure meets the teaching, learning, and operational needs of all stakeholders. School personnel develop and administer needs assessments and use the resulting data to develop and implement a technology plan to improve technology services and infrastructure.

**Evidence:**
- Technology plan and budget to improve technology services and infrastructure
- Policies relative to technology use

**Rating:** Level 3

## Indicator 4.6

**Statement or Question:** The school provides support services to meet the physical, social, and emotional needs of the student population being served.

**Response:** School personnel implement a process to determine the physical, social, and emotional needs of each student in the school. School personnel provide or coordinate programs to meet the needs of students as necessary. Measures of program effectiveness are in place, and school personnel use the data from these measures to evaluate all programs. Improvement plans related to these programs are designed and implemented when needed to more effectively meet the needs of students.

**Evidence:**
- Student assessment system for identifying student needs
- Social classes and services, e.g., bullying, character education
- List of support services available to students

**Rating:** Level 3

## Indicator 4.7

**Statement or Question:** The school provides services that support the counseling, assessment, referral, educational, and career planning needs of all students.

**Response:** School personnel implement a process to determine the counseling, assessment, referral, educational, and career planning needs of all students. School personnel provide or coordinate programs necessary to meet the needs of students whenever possible. Measures of program effectiveness are in place, and school personnel use the data from these measures to evaluate all programs. Improvement plans related to these programs are designed and implemented when needed to more effectively meet the needs of students.

**Evidence:**
- List of services available related to counseling, assessment, referral, educational, and career planning
- Budget for counseling, assessment, referral, educational and career planning
- Description of IEP process
- Description of referral process

**Rating:** Level 3

Reflect upon your responses to each of the indicators and performance levels by considering and responding to the following questions when drafting your narrative response. Use language from the performance level descriptions to guide your writing. Cite sources of evidence External Review team members may be interested in reviewing.
In the area of Resources and Support Systems, Saint Joseph High School's strength is in the use of a range of media and information to support the school's educational program. Our full-time media specialist and full-time technology director, with the help of their staff, provide support for students, faculty, and other staff members. We also have a Latino Outreach Coordinator who oversees the programs that are already in place to accommodate English Language Learners and provides information to Spanish-speaking parents and guardians. These positions are built into the budget for planning purposes. We will continue to monitor and make this a priority.

Although all other indicators received a rating of 3 (fully meets benchmark), it is important that we continue to ensure that instructional time, material resources, and fiscal resources are focused on supporting the purpose and direction of the school. We will continue to research best practices in these areas.
Standard 5: Using Results for Continuous Improvement

The school implements a comprehensive assessment system that generates a range of data about student learning and school effectiveness and uses the results to guide continuous improvement.

Overall Rating: 2.2

In the area of Using Results for Continuous Improvement, Saint Joseph High School's strength is in establishing and maintaining a clearly defined and comprehensive student assessment system. In our school, students take the state End of Course Assessments (ECA) and PSAT, as well as a local writing assessment given to freshmen and seniors. Most of our students also take the SAT, and an increasing number take the ACT for college admission. Those students taking Advanced Placement courses take the AP exams at the end of the year. These tests are disaggregated and the results shared with faculty. These practices will continue.

The areas in need of improvement include the use of data and providing training for faculty related to evaluation, interpretation, and use of data. We will research best practices and provide professional development opportunities in this area.

Student Performance Diagnostic
Introduction

The Student Performance Diagnostic provides an institution with a process to report summative student assessments. This diagnostic is significant to the accreditation and continuous improvement process as it serves as a resource for schools to view content area assessment results required by the state, district, or other entities, determine the quality and reliability of the given assessments, and show the alignment of the assessments to the school's curriculum. The performance level computed at the completion of the diagnostic is used by the external review team as a comprehensive report to understand fully the institution's assessment program; the diagnostic should be used in the same manner by the institution as it engages in improvement planning.

Areas of Notable Achievement

Which area(s) are above the expected levels of performance?

We are well above the state average in the areas of English and Reading (PSAT, SAT, ISTEP+). We are also well above the state means of Math (PSAT, SAT), but this is not reflected in the ISTEP Algebra results.

Describe the area(s) that show a positive trend in performance.

Because we are at the high end, no area shows a significant positive trend, but most every area is stable. The PSAT Critical Reading means have inched up slightly among juniors, and the overall PSAT Selection Index mean has increased.

Which area(s) indicate the overall highest performance?

The Language Arts areas are the highest in performance.

Which subgroup(s) show a trend toward increasing performance?

Females have increased on the SAT Math section. In most of the data sources, there are too few students in ethnicity subgroups to draw any conclusions with respect to that disaggregation possibility.

Between which subgroups is the achievement gap closing?

Because females have increased on SAT Math and males have remained stable, the gender gap is closing on that data source.

Which of the above reported findings are consistent with findings from other data sources?

The stability of the overall groups is consistent, but because of the paucity of disaggregation data (e.g. no gender data for the ISTEP+) there are few chances for correlation. The PSAT, for example, shows stability of Math scores among both males and females.
Areas in Need of Improvement

Which area(s) are below the expected levels of performance?

Although it is only one data source, the ISTEP+ Algebra 1 test scores lag significantly behind both the ISTEP+ English 10 and ISTEP+ Biology data.

Describe the area(s) that show a negative trend in performance.

The ISTEP+ Algebra 1 percent passing has been dropping. We believe this is due mainly to a decrease in the number of students taking the test, as well as other factors that we are investigating. In the past, feeder schools largely did not administer this test to their Algebra students, and now they do. There is a sizable group of freshmen that now do not need to take the test and are enrolled in a higher mathematics course, leaving the less advanced group of freshmen who must take the test.

Which area(s) indicate the overall lowest performance?

Only the ISTEP+ Algebra 1 scores fall into this category; math on PSAT and SAT is commensurate with other areas. It appears that students with a lower SES (free/reduced) fail the ISTEP+ Algebra test at a much higher rate.

Which subgroup(s) show a trend toward decreasing performance?

It would appear that students with a lower SES (free/reduced) fail the ECA Algebra test at a much higher rate.

Between which subgroups is the achievement gap becoming greater?

The aforementioned lower SES subgroup is likely too small to state definitively that the gap is becoming greater.

Which of the above reported findings are consistent with findings from other data sources?

The ISTEP+ Algebra results do not appear to be consistent with Math on the PSAT and SAT, and lower SES result cannot be correlated with PSAT and SAT since that disaggregation is not available.

<td>2</td>
<td>All departments will meet the needs of all students for college and career readiness.</td>
<td>Objectives: 1 Strategies: 2 Activities: 3</td>
<td>Organizational</td>
<td>$2000</td>
</tr>
</tbody>
</table>
Goal 1: All students at Saint Joseph High School will improve their literacy skills across the curriculum.

Measurable Objective 1:
100% of Ninth, Tenth, Eleventh and Twelfth grade Black or African-American, Asian, Bottom 25%, Bottom 30%, White, Economically Disadvantaged, Free/Reduced Lunch, Gifted and Talented, Hispanic or Latino, Improvement from 10th to 12th Grade, Improvement from 8th to 10th Grade, Students with Disabilities, English Learners, Two or More Races, American Indian or Alaska Native, Native Hawaiian or Other Pacific Islander and Top 75% students will demonstrate a proficiency of 80% in English Language Arts by 05/30/2018 as measured by English scores on PSAT, SAT, ACT, ISTEP+, and local writing assessment.

Strategy 1:
Students will apply a variety of techniques to complex text. - Teachers will present and practice incorporating differentiation skills with students.
Teachers will present and practice strategies for vocabulary development.

Evidence of success: SAT, ACT, PST, ISTEP+, Common Writing Assessment in grades 9 & 12.

<table>
<thead>
<tr>
<th>Activity - Teacher review of incorporating higher order thinking skills with students.</th>

Conclusion

The Indiana School Improvement Plan is designed to be comprehensive and for continuous improvement. Systemic use and consistent reflection are encouraged to update the status of the goals in order to make school improvement continuous and actionable.
